

## Icy Conditions, Inclement Weather and Emergencies Plan

Mason County Schools will schedule instruction on any available noninstructional day scheduled prior to the termination of the instructional term, except for holidays, election days or the preparation day scheduled for the closing of school, regardless of the purpose for which the day was originally scheduled , if inclement weather or an emergency situation causes the cancelation of school.

If, after March 1, there remains any outside school environment day(s) (OS) available on the calendar, it will be the discretion of the Superintendent to request to the Mason County Board of Education to move some/all of those days to the end of the calendar so that one hundred and eighty instructional days can be achieved for all students of Mason County Schools.
